Bharat Heavy Electricals Limited  
Technology Licensing

Ref: AA/TL/1003  
Date: October 14, 2016

Dear Sir/Madam,

**Subject: Selection of suitable technology partner for manufacturing of Catalysts for Selective Catalytic Reduction (SCR) to reduce NOx emission by BHEL under a license and technology collaboration agreement**

Bharat Heavy Electricals Limited (BHEL), a Maharatna CPSE, is looking to enter into a technology license agreement for design, engineer, manufacture, assemble, test, supply, erect, commission, repair, service and retrofit state-of-the-art Catalysts for SCR to reduce NOx emission for thermal power plants and other applications to meet market requirements.

In this regard, BHEL has floated an Expression of Interest (Eoi) on BHEL's website <http://www.bhel.com> seeking response from original SCR catalyst manufacturers who own the technology and would be prepared to discuss with BHEL regarding transfer of technology for the SCR Catalysts.

We seek your kind support in further circulation of this Eoi document, to the companies engaged in this business, so that BHEL can receive a wider response.

Thanking you,

Yours sincerely,

(Rajesh Kohli)
